- To: Hopkins, Joshua
- Hello Joshua,
- 
- **Thanks so much for stopping by today.** As you saw, Mr. Williams, my landlord had an overhead door installed. The door was installed last week but I have been unable to operate it because the installers installed it and left. They did not notify my office of any instructions. I forwarded you a couple pics separately of my findings when I pulled in that a.m. the gate was first installed.
- 
- Prior to your arriving I had just left Mr. Williams another message that I didn't receive anything to operate this door with. Mr. Williams had called me prior to having the install done to ask if I would be interested in paying a \$1400 upcharge for a remote type device as opposed to manually pulling the gate. I said I would have to agree to the remote as I'm not interested in backing out in the alley getting back out of my car to pull the gate down when it's dark in the winter months.
- 
- Please let me know if you need anything else from me and I'm looking forward to a safer environment back there.
- 
- My best,
- Beneak

## Ward 6

### **210 I St NE: Securing problem property for Capitol Hill Community**

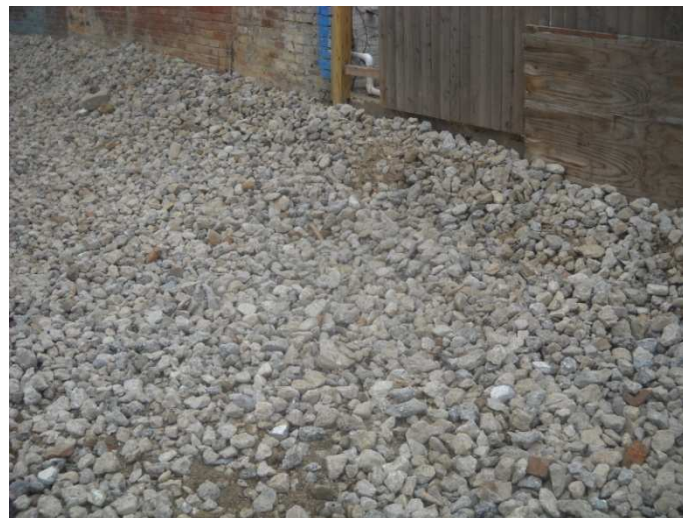

Ward 6 MOCRS Specialists coordinated ongoing project with MPD, OAG, DPW and DCRA to persuade owners of 210 I St NE in the erection of garage door. The rear of this property has been a chronic site of illegal activity including prostitution and drug activity. ***The resolution of this longstanding issue has secured a vote of confidence with the neighbors in the efficacy of DC city government and the attentiveness of the Executive Office to constituent concerns.***
